"Teaching Woodwinds" is a general pedagogy and resource text for woodwind players and teachers. It gives an overview of basic pedagogical techniques with relevant musical examples from classical, popular, and folk repertoires; discusses caring for, choosing, and assembling instruments; evaluates methods and materials; gives fingering charts; and provides a complete bibliography of educational materials. While concentrating on fundamentals, special attention to innovative ideas for teaching is emphasized throughout. Playing Materials are used primarily for introducing and demonstrating basic techniques. The approach recognizes that a woodwinds pedagogy class is much more than a "how-to-play" class and provides a source of pertinent information that is important to instrumental teachers.
